Dear Harold:

Saw a copy of The Seigenthaler "Search For Justice". Squires "contributed".

Utterly devoid of merit and dank with the musty odor of the newspaper morgue.

No possibility of fiscal return for a publisher. Even this hack, wordy opus has to concede a conspiracy in The M.L.K. case, however.

Frank's "book" has received no advance notice in the publishing area.

What can he write with Ruiz "theory" that Huie didn't?

A Grand Jury will hear evidence of R.F.K.

mishandling but the story has been blacked out in The East.

Faunal Laurence story interesting.

J. G. never developed "anything" at even exploited material given him on a platter.

Best Wishes,

P
